

Pure Science. Perfect Finish.

TECHNICAL DATA SHEET

Product Name: **Jade Ceramic Coating - Edge**

Part No.	Size	Unit
JECC-50	50 mL	12/Case
JECC-K	50 mL	1/Kit
JECC-1G	1 Gallon	4/Case
JECC-5G	5 Gallon	

Description: JADE CERAMIC COATING - EDGE is a clear, nano crystalline coating that protects your vehicle from weather, chemicals, and UV rays while repelling water, dirt and other contaminants. Jade Edge applies an ultra hard (4H), durable coating that is 2-3 micron thick and imparts a deep, reflective shine.

Directions: Shake well and pour several drops to suede applicator. Apply to trim pieces and rubber molding using a cross-hatch pattern with slight overlap to level product. Allow the coating to cure for 5-10 minutes and gently remove excess product, if any, using a clean suede cloth or low nap microfiber towel. Do NOT allow coating to come in contact with water for 48 hours while curing. Apply additional coats with at least one hour between applications. Do NOT apply in direct sunlight or to a hot surface. Cure time is dependant on environmental conditions - test product on a small inconspicuous area first to gauge cure time.

General Info:

					
-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------

Cautions: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground / bond container and receiving equipment. Use explosion-proof electrical / ventilating / lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves / eye protection / face protection.

First Aid: IF SWALLOWED: Call a POISON CENTER / doctor if you feel unwell. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water / shower. IF exposed or concerned: Get medical advice / attention. Rinse mouth. In case of fire: Use sand, carbon dioxide or powder extinguisher to extinguish.

Technical Data:

Flash Point:	112-119 F (44 - 48 C)
Appearance:	Clear, Colorless
Physical State:	Liquid
Odor:	Characteristic
Specific Gravity:	0.97 g/cm ³ , 8.11 lb/USGal @ 25 C
