

Pure Science. Perfect Finish.

TECHNICAL DATA SHEET

Product Name: **D31 Pure Metal Polish Paste**

Part No.	Size	Unit
D31-8	8 fl oz Jar	12/case
D31-55G	55 Gallons	Drum
D31-275G	275 Gallons	Tote

Description:

D31 PURE METAL POLISH PASTE is a versatile, easy to use abrasive compound that can quickly remove oxidation and surface defects from rims, chrome and metal on automotive and marine applications. D31 Pure Metal Polish Paste utilizes a speciality blend of oleic and stearic acids along with a blend of diminishing micro-abrasive technology to cut quickly, with very little surface swirling and create a high gloss finish for all types of metal substrates. Easy clean-up with minimal dustiness. Silicone free, no fillers, body shop safe and VOC compliant. It boasts a luxurious creme texture with a faint pink color and cinnamon fragrance.

Directions:

Apply creme onto surface to be polished and wipe in swirling motions. Observe the black oxidation build-up on applicator as the polish takes effect removing the upper most layer of the metal substrate. Test on an inconspicuous area first. Do not use on decorative coated surfaces like rims, as the coating will be damaged.

General Info:

				5-45°C 41-113°F

Cautions:

Can cause eye irritation. Excessive inhalation may cause respiratory irritation. Ingestion can cause gastrointestinal irritation. Prolonged skin contact may cause slight irritation.

First Aid:

Eyes: Flush with water for 15 minutes, call physician if irritation persists. Inhalation: Remove to fresh air, call physician if irritation persists. Ingestion: Do not induce vomiting, call physician.

Technical Data:

Flash Point:	>100 C @ 101.3 kPa (Closed Cup)
Appearance:	Light Pink
Physical State:	Thick Liquid Creme (Paste - Non-Flowing)
Odor:	Cinnamon
Specific Gravity:	1.12 g/cm ³ ; 9.3 lbs/USGal; (H ₂ O = 1)
Dangerous Goods:	Not Regulated - US DOT, IATA, IMDG
